

LETTER OF RECOMMENDATION

Date: September 17, 2023

Attention: TO WHOM IT MAY CONCERN

Hello!

It is my pleasure to recommend **Yousef Ahmed Mohamed Gomaa** for any internship role or academic degree in AI and Robotics and its related fields. I am **Hazem Abdullah** the ICT Trainer at Brainy n Bright, Dubai. Yousef was under my mentorship from **2023-08-01** to **2023-08-31** and worked on SUMO projects (Global robotics competition).

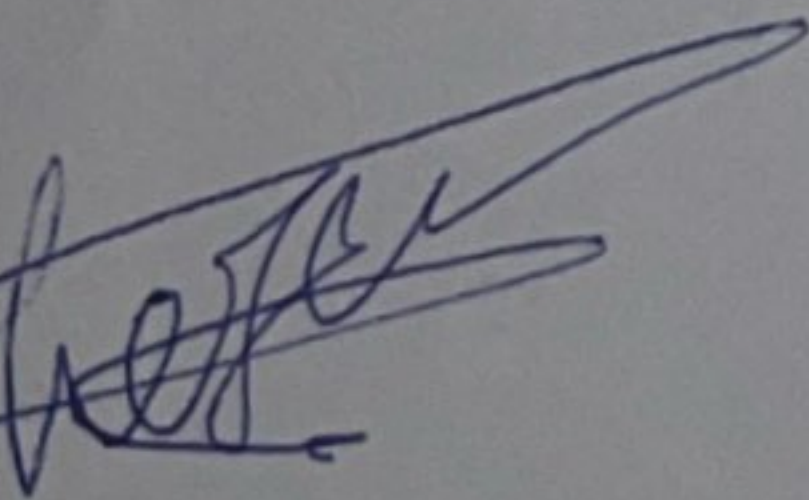

Yousef demonstrated great logical thinking and analytical skills during the internship. He has excellent communication skills. He was able to analyze problematic situations and has demonstrated good teamwork skills. He submitted an exceptionally well-researched and interesting course content on Quantum Mechanics with Python. He handled the training of the students on LEGO Robotics, python, Arduino (Circuits and design) and machine learning.

On a personal level, he was a well-disciplined, industrious intern with a pleasant personality with the performance well beyond the course requirements in the quantity and quality of the project. Throughout the internship, he demonstrated great perseverance and initiative.

He is unquestionably an exceptional candidate for Technology internships and study programs, and would greatly benefit from the opportunities for intellectual development. I am confident that he will perform exceptionally well as a graduate student, and also would be an extremely positive asset to your program.

If I can be of any further assistance, or provide you with any further information, please do not hesitate to contact me.

Yours Sincerely,

Hazem Abdullah
ICT Trainer
